MohammadReza Tayebi

Software Engineer (+10 Years of Experience)

(+98) 912 - 098 2276
github.com/tayyebi
tayyebimohammadreza@gmail.com
linkedin.com/in/mohammadrezatayyebi

Skills

Core Proficiencies: C#, PHP, Git

AI-Assisted Development: TypeScript, Node.js, React

DevOps & Infrastructure: CI Workers, Linux (Debian), Docker, Nginx

Experience

Cloudzy.com

Nov, 2024 – Present

Full-Stack Software Developer

VPS Provider since 2008. in/co/cloudzyvps

Status Page

- Designed a multi-tenant architecture allowing tenants to define groups and services, with subscription options to expose services externally
- Supported multiple protocols and conditional checks for service monitoring and grouping
- Built active-active, masterless multi-region replication with auto-provisioning
- Built Cloudflare Workers for routing, load balancing, and status pages

Billing System

- Reduced production incidents and cut technical debt by refactoring and cleaning up the billing system architecture, improving long-term backend reliability
- Designed a legacy replacement with GDPR and IFRS compliance

Mailserver

- Built and operated a scalable multi-region email platform; added Grafana-based observability for latency, bounces, and throughput
- Automated RFC 5965 abuse handling

Main Website

- Eliminated duplicate infrastructure and content-management overhead by unifying multiple legacy sites into one application
- Built custom WordPress plugins and Elementor widgets; consolidated dozens of plugins into one solution
- Implemented “sunrise” logic with an Elementor child theme and snippets for staging/production proxy rules, scaling, load balancing, and access control
- Automated SEO tests using Google Apps Script, and CI/CD for multi-regional replication; implemented tiny self-hosted comment spam detection system, and single-binary optimizer to improve static files at the edge

General tasks

- Reverse-engineered Cloudflare rules; implemented multiple MVPs for a shared-hosting platform; Billing as a Service; Applicant Tracking System; Core Web Vitals monitoring; Live Chat + AI; Marketing Automation Platform; Developer CLI

Arg Group (Gordarg.com) & Previous Experiences

2018 – 2024

Founder & Software Engineer

Design and development of custom-built software solutions for business. gordarg.com

- Founded the company and led a team of 3–5 engineers serving 50^{+} clients.
- Gordarg.com oversees subsidiaries such as data aggregation service and some mobile applications, all of which are accessible through our website.
- Highlighted below are some of the key projects where personal contributions were particularly significant and were recognized through numerous recommendation letters from satisfied customers.
- **Back-end Developer at Mr Bilit Group** — As a remote developer, worked on a legacy PHP codebase and helped transition it into a more scalable C# solution, contributing to the system that synchronized hundreds of thousands of bus and plane seat statuses for reservation platforms.
- **CTO at Tokan Tav Tejarat (Hamtire)** — Responsible for automating data-gathering processes and contributing to the development of solutions for importing heavy-vehicle tires, while helping guide the team toward delivering these systems to market.
- **Site Reliability Engineer at Zoomila.com** — Removed the single biggest bottleneck blocking the team’s refactoring effort by breaking a large legacy codebase into several maintainable containers, unlocking a cleaner, more modular architecture.

Projects

Mailserver | *since 2024, 2 yrs old*. A fully self-hosted, single-container mail server (Rust, Postfix, Dovecot, OpenDKIM) with a built-in admin dashboard, webmail, DKIM/DMARC tooling, CalDAV/CardDAV sync, and an MCP API for AI-assistant integration.

Launchpad. A Persian-language Android productivity app for task management, a built-in timer, and a home-screen widget that surfaces task status at a glance.

Agentless Monitor | *since 2025, 1.2 yrs old*. An Elixir/Rust SSH-based server monitoring dashboard that tracks CPU, memory, disk, network, and port status across a fleet with zero agent installs.

Laravel Docker Web Hosting | *since 2023, 3.2 yrs old*. A Laravel 12 + Docker self-hosted hosting control panel that provisions isolated per-site container stacks (web, database, phpMyAdmin, file manager) behind an Nginx/Lua reverse proxy.

Deepr | *since 2025, 6 months old*. A .NET/Blazor multi-agent decision-support API that orchestrates AI and human councils through structured methods (Delphi, NGT, ADKAR, Weighted Deliberation) and analytical tools (SWOT, PESTLE) to reach and export ranked decisions.

Streaming | *since 2018, 8.5 yrs old*. A Docker / Nginx-RTMP / stunnel guide and scripts for simulcasting a desktop or camera feed to multiple streaming destinations simultaneously.

TehranStocks | *since 2021, 5 yrs old*. A C#/.NET service that fetches and organizes public market data from the Tehran Stock Exchange (TSETMC).

Volunteer

United Nations Volunteer *June 2022 – December 2022*

Web Developer

UNEP and UNCCD accredited non governmental organization working for permaculture, mental health and education in India. uvsociety.org

- Worked with 12 volunteers across time zones to build a multi-vendor marketplace for Indian farmers.
- Configured a WordPress/WooCommerce application behind a Dockerized Nginx Reverse Proxy, as a temporary solution.

Bu-Ali Sina University *2018 – 2020*

Guest Lecturer

Design and delivery of workshops and crash courses at the Scientific Society of Computer Science and Engineering.

- Instructed the *Full-stack developer* workshop and *Advanced MVC* crash course to familiarize students with industry standards.

Education

MBA	Khaje Nasir Toosi University of Technology	September 2021 – May 2023
Bachelor of Science in Computer Engineering	Bu-Ali Sina University	September 2016 – August 2021

Honors & Awards

WorldSkills 2017 Abu-Dhabi | *Champion*, *National Gold Medalist*

- 4 days of challenging web, desktop, and mobile programming, data architecture, and software analysis in the world's largest skills competition welcoming tens of talented youth professionals from different countries.

Khwarizmi Youth Award 2015 | *National Ranked 3rd*

- Implemented a centralized authentication and authorization software, and was honored to get a place among 45 awarded students out of 25339 (top $\frac{1}{10}$%) in the most creditable scientific festival of the nation, at the age of 17.

Certifications

Data Analytics: Foundations | NASBA – LinkedIn Learning; *2023*. ID ARJ...T0

Business Process Modeling | PMI – LinkedIn Learning; *2023*. ID AfY...oc

Business Analysis Foundations | IIBA – LinkedIn Learning; *2023*. ID ASh...Et

Certified Instructor | TVTO; *2015*. Contract No. 5243 96/30_475616/2

Enterprise Web Development with ASP.NET | TVTO; *2013*. No. 90163030986

Notes

Languages | Persian, English (C1), German (A2)

Hobbies | Music Performance, Cycling, Night Sky Observation, Robotics

Some of the organizations and media also wrote 'Tayyebi' as 'Tayebi' / 'Mohammad' as 'Mohamad' / '..dReza' as '..d Reza' which are also accepted.
