MohammadReza Tayebi

Software Engineer

(+98) 912 - 098 2276
tayyebimohammadreza@gmail.com
github.com/tayyebi
linkedin.com/in/mohammadrezatayyebi

Skills

Core Proficiencies: C#, PHP, Git

AI-Assisted Development: TypeScript, Node.js, React

DevOps & Infrastructure: Linux (Debian), Docker, Nginx, AWS S3, CI/CD

IT Project Management: UML, Business Analysis, MCDA, Waterfall Methodology

Experience

Cloudzy.com

Nov, 2024 – Present

Full-Stack Software Developer

VPS Provider since 2008. in/co/cloudzyvps

Billing System

- Improved backend reliability across API gateways and bare-metal agents via refactoring and architectural cleanup
- Contributed to system design for a legacy software replacement, ensuring GDPR and IFRS compliance

Mailserver

- Architected and maintained a scalable email infrastructure with optimized cross-region multi-relay delivery; added observability for queue latency, bounce rates, and throughput using Grafana dashboards and a custom milter
- Automated abuse processing and monitoring based on RFC 5965

Main Website

- Led migration and integration of multiple legacy static site generators into a single web application, coordinating with the deputy CEO, marketing lead, infrastructure lead, and project manager
- Developed object-oriented WordPress plugins in PHP, created dynamic snippets to streamline workflows, and implemented custom Elementor widgets; consolidated tens of plugins into a single consistent solution
- Implemented “sunrise” logic with an Elementor child theme and snippets for staging/production proxy rules, scaling, load balancing, and access control
- Automated SEO tests using Google Apps Script, and CI/CD for multi-regional replication; implemented tiny self-hosted comment spam detection system, and single-binary optimizer to improve static files at the edge

Status Page

- Designed a multi-tenant architecture allowing tenants to define groups and services, with subscription options to expose services externally
- Supported multiple protocols and conditional checks for service monitoring and grouping
- Implemented active-active, masterless application-level replication and multi-regional deployment for high availability, with auto-provisioning and zero-configuration
- Built custom Cloudflare Workers to orchestrate traffic, load-balance across regions, and serve public status pages

General tasks

- Contributed to Cloudflare rules de-engineering; implemented multiple MVPs for a shared-hosting platform; Billing as a Service; Applicant Tracking System; Core Web Vitals monitoring; Live Chat + AI; Marketing Automation Platform; Developer CLI

Arg Group (Gordarg.com)

2018 – 2024

Founder & Software Engineer

Design and development of custom-built software solutions for business. in/co/gordarg

- Initiated the brand from inception, assembling a team of three to five engineers to deliver software solutions and integration services to 50^{+} clients across various industries.
- Gordarg.com oversees subsidiaries such as data aggregation service and some mobile applications, all of which are accessible through our website.
- Highlighted below are some of the key projects where personal contributions were particularly significant and were recognized through numerous recommendation letters from satisfied customers.

Previous Experiences

- **Back-end Developer at Mr Bilit Group** — As a remote developer, worked on a legacy PHP codebase and helped transition it into a more scalable C# solution, contributing to the system that synchronized hundreds of thousands of bus and plane seat statuses for reservation platforms.

- **CTO at Tokan Tav Tejarat** — Responsible for automating data-gathering processes and contributing to the development of solutions for importing heavy-vehicle tires, while helping guide the team toward delivering these systems to market for Tokan Tav Tejarat (Hamtire).
- **Site Reliability Engineer at Zoomila.com** — Broke a large legacy codebase into several maintainable containers, removing a major bottleneck that had been slowing down the project's refactoring efforts, and helped make the transition to a cleaner, more modular architecture possible.

Volunteer

United Nations Volunteer *June 2022 – December 2022*

Web Developer

UNEP and UNCCD accredited non governmental organization working for permaculture, mental health and education in India. uvsociety.org

- Collaborated with a team of 12 volunteers from different countries and time zones to create a multi-vendor marketplace for Indian farmers based on a multi-tier RESTful architecture.
- Configured a WordPress/WooCommerce application behind a Dockerized Nginx Reverse Proxy, as a temporary solution.

Bu-Ali Sina University *2018 – 2020*

Guest Lecturer

Design and delivery of workshops and crash courses at the Scientific Society of Computer Science and Engineering.

- Instructed the *Full-stack developer* workshop and *Advanced MVC* crash course to familiarize students with industry standards.

Education

MBA	Khaje Nasir Toosi University of Technology	September 2021 – May 2023
Bachelor of Science in Computer Engineering	Bu-Ali Sina University	September 2016 – August 2021

Honors & Awards

WorldSkills 2017 Abu-Dhabi | *Champion*, *National Gold Medalist*

- 4 days of challenging web, desktop, and mobile programming, data architecture, and software analysis in the world's largest skills competition welcoming tens of talented youth professionals from different countries.

Khwarizmi Youth Award 2015 | *National Ranked 3rd*

- Implemented a centralized authentication and authorization software, and was honored to get a place among 45 awarded students out of 25339 (top $\frac{1}{10}$%) in the most creditable scientific festival of the nation, at the age of 17.

Certifications

Data Analytics: Foundations | NASBA – LinkedIn Learning; *2023*. ID ARJ...T0

Business Process Modeling | PMI – LinkedIn Learning; *2023*. ID AfY...oc

Business Analysis Foundations | IIBA – LinkedIn Learning; *2023*. ID ASh...Et

Certified Instructor | TVTO; *2015*. Contract No. 5243 96/30_475616/2

Enterprise Web Development with ASP.NET | TVTO; *2013*. No. 90163030986

Notes

Languages | Persian, English (C1), German (A2)

Hobbies | Music Performance, Cycling, Night Sky Observation, Robotics

Some of the organizations and media also wrote 'Tayyebi' as 'Tayebi' / 'Mohammad' as 'Mohamad' / '..dReza' as '..d Reza' which are also accepted.
